Message from the Founder

Thank you for your purchase of a HIFIMAN product. We take great pride in offering audio products that provide best-in-class performance and value.

Though it seems like only yesterday when, as a passionate audiophile, I started HIFIMAN, we just finished our first decade in business and eagerly look forward to an exciting future. The company continues to grow at a rapid pace, and the HIFIMAN brand is one of the most respected in the industry.

Even with our success, two things that never change are my love of music and my commitment to creating products that recreate the experience of hearing a live performance. I am joined by many others in the company who share my passion and in turn, we humbly share our passion with you.

Thank you again for your purchase. I hope you will find this guide a useful tool for learning about your product, ultimately helping you enjoy countless hours of pleasure.

Happy listening,

Fang

Dr. Fang Bian,
Founder and CEO

Closed back, open soundstage

The acoustic design of the Audivina LE draws inspiration from the acoustics of Bayreuth Festspielhaus. Through precision engineering of its sealed cavity structure, it effectively resolves the common issues of narrow sound-stage and bass echo often found in closed-back headphones.

New Material Breakthrough

Building upon the acoustic foundation of the original, the Audivina LE further optimizes earcup shell design through material selection, structural reinforcement, and surface texturing. This minimizes acoustic resonance caused by the housing while delivering a precision-tuned low-frequency boost—striking an optimal balance between studio monitoring accuracy and musical enjoyment. Concurrently, the design achieves reduced weight, enhanced long-term wear comfort, and improved structural durability.

Acoustically Invisible Stealth Magnets

The advanced magnet design featured in the AUDIVINA LE is acoustically transparent, dramatically reducing wave diffraction turbulence that typically degrades the integrity of the sound waves. The result is reduced distortion, yielding a purer, more harmonious sound that is demonstrably better than previous designs.

Unlike the sound waves that are created by conventional magnets, the unique shape of stealth magnets enable soundwaves to pass through the magnet without generating interference.

Degradation of sound quality in a conventional planar magnetic headphone is caused by the magnets getting in the way of the sound wave.

The same happens in conventional electrostatic headphones, where the degradation of sound quality is caused by the stator's interference.

A conventional dynamic driver's frequency response can be altered due to distortions and vibrations across the diaphragm surface.

NEO “supernano” Diaphragm (NsD)

“Hear what you have been missing”

The all new NsD is 80% thinner than previous designs resulting in a faster more detailed response while retaining lush musicality never before possible. At between 1 to 2 microns thick, the NsD diaphragm sets all be standards.

Headband
Gen.2

New Composite Headband

Weight reduction of 20-30g with rotatable hinges for enhanced wearing comfort.

3.5mm single-end
1.5m cable

XLR balanced
3m cable

6.35mm single-ended
3m cable

Multiple Cable Options for A Variety of Scenarios

The highly reliable socket ensures the contact resistance remains extremely low while having no effect on the signal path.

In-box companions include:

3.5mm single-end cable, one piece, suitable for most portable audio devices, mobile phones, PCs, etc.

XLR balanced cable, one piece, suitable for professional and audiophile-grade amplifiers.

6.35mm single-end cable, one piece, suitable for professional and audiophile-grade amplifiers.

The Earpads

The AUDIVINA LE's earpads are made from eco-friendly, silky leatherette material with high-tech fabrics. Sonics and comfort are maximized for hours-long listening sessions.

Package Details

Specifications

Frequency Response: 5Hz-55kHz

Impedance: 20 Ω

Sensitivity: 96dB

Weight: 449g

Package Contents

AUDIVINA LE Headphone

Ear pads (installed on the headphone) x 1 pair

3.5mm single-end 1.5m cable x1

6.35mm single-ended 3m cable x1

XLR balanced 3m cable x1

Headphone Travel Bag x1

Headband Adjustment

For the best possible fit, use the two adjustment blocks to adjust the position of the headband strap.

Replacing Ear Pads

The ear pads are designed to be directly attached to the earphones, so if you need to replace the ear pads, please attach them carefully. To remove old pads, directly pull from the edge away from the cup housing. They are attached with Velcro and should peel off easily.

Care and Maintenance

The headphones benefit from break-in to achieve optimum performance. Usually, this takes up to 150 hours. Until then, there is nothing special you need to do other than enjoy your headphones.

Wipe the surfaces (ear pads, cups) with a microfiber cloth and store the headphone in a dry, cool, and safe place (away from dust, heat, humidity, sunlight, younger kids, and pets if possible).

To prolong the life of the headband, periodically wipe it with a clean, dry cloth.

Avoid exposure to extreme heat or cold.

Do not use any headphone while driving or operating machinery.

Do not use volatile substances, including alcohol, acetone, gasoline or dish detergent, to clean the headphone.

HIFIMAN Limited Warranty

AUDIVINA LE is warranted for a period of two years beginning with the original date of purchase. If you join the official HIFIMAN group on Facebook, your product warranty will be extended for an additional six months. Please contact HIFIMAN customer service if you need any assistance.

The dated sales or delivery receipt is your proof of purchase. You may be required to provide proof of purchase as a condition of receiving warranty service so please keep it handy.

If your product is under warranty and malfunctions occur, please contact HIFIMAN customer service or your authorized dealer. If necessary, and at the discretion of HIFIMAN, the company will provide a warranty repair or replacement of your product.

Caution: do not disassemble or modify the product in any way. Tampering with or modifying your HIFIMAN product will void its warranty.

This Limited Warranty does not apply to :

1. Defective or discolored parts if the damages are caused by fluids, dirt, missing keys, broken plastic parts or improper use.
2. Damage caused by misuse with another product.
3. Use of the product for other than its normal intended use, including, without limitation, failure to use the product in accordance with the supplied "Owner's Guide"
4. Damage caused by accident, abuse, neglect or misuse.
5. If you do not have a valid dated receipt showing proof of purchase.
6. Damage caused by services/repairs or other modifications to the system carried out by anyone other than HIFIMAN or an authorized HIFIMAN distributor or dealer.
7. Damage caused by self-repair or if the unit has been disassembled or modified in any way.

HIFIMAN guarantees your satisfaction and will do everything reasonable to achieve that. If you have any questions or concerns with your product, simply contact your authorized dealer or HIFIMAN directly (if purchased from us) and explain the issue in detail. Should a return be required, a RA# will be issued. Return shipping to HIFIMAN or authorized service facility will be at the owner's expense.

The warranty applies to the first purchaser and is not transferable. Should you need warranty service please contact your authorized HIFIMAN dealer. Or email us directly at customerservice@HIFIMAN.com

If you have any concerns with your product: please contact us to explain the issue in detail. If a return/refund is required, a RA# will be issued. Return shipping to HIFIMAN or authorized service facility is done at the owner's expense.

For any further information or questions, please contact your authorized HIFIMAN dealer. Or email us directly at customerservice@HIFIMAN.com.

1. Correct disposing of waste electrical and electronic equipment (WEEE) and symbol of the “crossed-out wheeled bin”

The crossed-out wheeled bin on WEEE means that you are obliged by law to dispose of this equipment separately from the unsorted municipal waste collection system. Disposing of it in the residual waste bin, the yellow bin or yellow bag for recyclable materials is legally prohibited. If the equipment contains portable batteries, accumulators or lamps that are not permanently installed, these must be removed before disposing of the product and be disposed of separately as waste portable batteries.

2. Ways of returning waste electrical and electronic equipment

Owners of waste electrical and electronic equipment can return them to those facilities for returning or collecting waste electrical and electronic equipment set up and provided by the public-sector waste disposal authorities or alternatively with collection points installed by producers, retailers or distant sellers to ensure that the waste electrical and electronic equipment is disposed of correctly. The following link leads to an online registry of the available collection and take-back sites: <https://e-schrott-entsorgen.org/>

3. Data privacy

We should point out to all end-users of waste electrical and electronic equipment that they themselves are responsible for deleting all personal data from the waste electrical and electronic equipment to be disposed of.
